High-Level Assassination–The Staged Event To Bring About War With Iran?

With attention being drawn to the contradictions and outright lies by the US government surrounding the events of 9/11 (as well as renewed interest in previous false flag events such as the attack on the USS Liberty meant to draw the US into Israel's dirty wars) it may very well be that the powers-that-be have decided the event ushering in the next phase of war against Israel's enemies will come from be a high-level assassination involving democratic candidate for president Barack Obama.

As FDR himself once quipped, *"If something happens in politics, you can be rest assured it was no accident"*. Therefore, persons wise to the ways of the world of Zionist intrigue can assume the recent spate of news stories pairing the idea of "assassination" with the name '"Barack Obama" cannot be mere coincidence. Nor should the fact that out of all the individuals the powers-that-be could have chosen as a candidate for President that the one they settled on was a black man with a distinctly Muslim name.

The outcome of such an event is as obvious as it is frightening. The first black candidate for president from one of America's two major parties being gunned down by "Islamic terrorists" tied to Iran (who will no doubt be aligned with "white nationalist/neo-Nazi types") would result in an American public howling for war against Iran, to say nothing of the civil unrest that would erupt in America's cities as well as a virtual police state being inaugurated.

As far as the evidence itself indicating that such plans are afoot, one need look no further than some of the stories coming out of the mainstream news these days. Beginning with Hillary Clinton herself who, when asked why she was not dropping out of the race for the democratic nomination remarked on the assassination of Robert Kennedy in 1968 by Sirhan Sirhan, a Palestinian 'terrorist' said to be angry with RFK because of his support for Israel. What she was intimating in her comments was that an Obama assassination was enough of a possibility that she still had a chance of winning and had decided therefore to stay put.

Next there are certain carefully-placed news stories and Op-Ed columns to consider. In a New York Times piece arch-Neocon and slavish, slobbering supporter for Israel Edward Luttwak directs the collective American attention towards a future Obama assassination in a piece entitled "President Apostate" where he points out that under Islamic law, Obama's Muslim father means that Obama himself is also a Muslim, and that willful conversion to Christianity would be deemed apostasy, the penalty for which is death, usually by beheading. Of the dozens of Islamic countries Luttwak could have mentioned, he lists only two where such a death sentence might be issued–Saudi Arabia and Iran. Given the fact that Saudi Arabia is a puppet of the US and Israel and is not on the 'axis-of-evil' list like Iran, any 'lone nut' assassin would therefore by implication come from Iran, the same nation from which the infamous death sentence against anti-Islamic writer Salman Rushdie was proclaimed for his book 'The Satanic Verses'.

More recently there is the spate of stage-prop news stories portending the presidential candidate's possible upcoming date with the grim reaper. In early June, a story detailing the arrest of a man outside Obama's hotel entitled 'Fear for Obama's Safety After Knife Arrest' features one Davit Zakaryan arrested by Secret Service agents when found with an 8-inch knife in his possession. Of particular interest is the man's name (and more importantly the last part of it 'Aryan') as Zionist groups such as the ADL and their tentacles throughout the mainstream news media are now trying (as they did with the bombing of the Murrah Federal Building in Oklahoma city) to establish a link between 'Muslim Extremists' and right wing/white nationalist/domestic terrorist types. Relevant to this are the stories appearing in mainstream news recently detailing the testimony of Mike McConnell, director of National Intelligence claiming Al Qaeda is busy 'recruiting white Europeans into its ranks' for attacks on the US, and more importantly–'just prior to the elections'.

The possibility of collusion at the highest levels with such a conspiracy is not helped out by other events taking place recently. A story appearing in the Dallas Star-Telegram entitled "Police concerned about order to stop weapons screening at Obama rally" reveals that Obama's Secret Service detail decided to stop screening people for weapons an hour before he was to appear at a large rally in Dallas and how that city's police chief questioned the wisdom of such a decision. The obvious relevance of the word assassination being paired with the city of Dallas and John F Kennedy obviously adds even more intrigue to the issue.

And, last but not least, there is the most recent event taking place at the time of the Democratic convention in Colorado, where 3 men were arrested with high-power rifles and other pieces of equipment in what police said was a plot to kill Obama. The men (one named–surprise, surprise–'Adolph') admitted to planning to kill Obama at his acceptance speech and were tied with–surprise surprise again–white nationalist/neo-Nazi groups.

The other obvious advantage to such a scenario taking place for the Neocons is that it would allow them to clean house' within the US defense/intelligence establishments. Intimating (or outright charging) that the assassination was 'helped along' by elements within the highest echelons of America's defense and intelligence establishments would give JINSA the pretext for the witch hunt she has wanted to conduct for some time now. With this in hand, those persons, and particularly those of considerable influence who have up to this point hindered the attack on Iran, would be removed, giving Israel and her insatiable war machine a clear, open road to do whatever she wants.

Those who doubt that Israel and her traitorous dual-loyalty surrogates working at the highest levels of the US government would be willing to carry out such an act need to think twice, and particularly against the backdrop of history. As investigative reporter Michael Collins Piper aptly proved in his book Final Judgment, it was Israel's Mossad who had the greatest reason, motive and opportunity to kill not only John F Kennedy, but also his brother Robert and his son JFK junior. Besides this there is the testimony of Margaret Truman, daughter of president Harry S. Truman who wrote that Zionist assassins tried to kill her father through the US postal service. As recent as 2003, Israel announced officially that she would 'resume' (as if she ever truly refrained from) assassinations on the soil of 'allies' (which includes the US) in the interest of 'fighting 'terror', and given the fact that the Jewish state sees the US being involved in fighting her wars, this obviously means anything done on the furtherance of this policy is justifiable. More important though are the words coming right out of the horse's mouth, in this case ex-Israeli intelligence officer Victor Ostrovsky in his book 'The Other Side of Deception' who had the following to say concerning Israel's planned assassination of George H.W. Bush at the Madrid Peace Talks in 1991–

> *"Since the Mossad had all the security arrangements in hand, it would not be a problem bringing the killers as close as they wanted to President Bush and then staging his assassination. In the ensuing confusion, the Mossad people would kill the 'perpetrators,' scoring yet another victory for the Mossad. With the assassins dead, it would be difficult to discover where the 'security breach' had been, except that several countries involved in the conference, such as Syria, were regarded as countries that assisted terrorists."*

To think the day would come in America when rational persons were justified in considering the possibility that their own government–working in collusion with agents of another power–would be willing to assassinate one of the frontrunners for the office of president in order to start a war that could destroy the nation seems surreal. However, the sad fact is this–Such questions being asked is not only justified, but warranted. After all, lest it be forgotten, it was the US government–and in particular one Michael Chertoff, current head of Homeland Security–that after 9/11 sent back to the Jewish state hundreds of Israeli spies, some caught red-handed in circumstances as incriminating as filming the towers coming down and cheering.

And given these events, concerned Americans should keep a watchful eye on what takes place in the coming weeks and months with respect to the health and welfare of one Barack Hussein Obama, calling to mind the motto of Israel's Mossad *"By way of deception, thou shalt do war"*.

Mark Glenn's fascinating article, in which he speculates on the high likelihood of Obama's imminent assassination, is well worth reading several times. This is because it is crammed with factual information and complex arguments that are not very easy to assimilate at a single reading.

According to Glenn's thesis, Obama's assassination would provide the American government and its Israeli-controlled neocon puppeteers with a prefect pretext for launching a devastating attack on Iran. This is because the assassin, naturally, would be shown to have Iranian connections.

And who would carry out the actual attack on Obama? Why, the same organization that was responsible for the assassination of President John F. Kennedy: Mossad.

Who would have most to gain from this evil attack on Iran? The answer is obvious: the same nation that had most to gain by the wanton destruction of Iraq and the genocide of over a million innocent Iraqis. Yes! the same terrorist nation, built on stolen land, that had most to gain from the attack on the American mainland seven years ago — on September 11, 2001.

Tomorrow will make it seven years exactly that Israel declared war on America.

Thanks for another excellent article ,Mark.
Hopefully nothing will happen to Obama, but as you point out so succinctly, all the signs are there already that this is the reason he has been put forward and yet another "false flag"is being prepared to take the Zionist agenda one more step towards their goal. One has to wonder how this will all end and are we all being led like cattle to the abbatoir by the hidden hand of the only "democracy" in the middle East and their Neocon buddies?

The latest news out from the BBC is that Israel may be planning to kidnap Iranian President Mahmoud Ahmadinejad. Naturally such a provocation would lead to a military response from Iran, which in turn would bring America into war in defence of its Frankenstein Monster in the Middle East.

The threat to kidnap the Iranian president has come from Israeli politican Rafi Eitan, former Chief Co-ordinator between Shin Bet and Mossad. Eitan, now 81 years old, sprung to fame many years ago with the kidnapping of Adolph Eichmann in Argentina in 1960. So we have here an experienced operative with highly honed kidnapping skills. The same man, incidentally, was behind the Jonathan Pollard affair.

Eitan has just told Der Spiegel Magazine in Germany that kidnapping of anti-Jewish criminals by Israel is by no means a thing of the past. Israel has every right, he says, to kidnap President Ahmadinejad. After all, hadn't Ahmadinejad threatened to drive every Jew into the sea and "wipe Israel off the map"?

Mark Glenn has written another excellent article on the possibility of Obama being assassinated. I had commented on the article and its merits at some length in a previous post, but unfortunately the comment got lost owing to some computer glitch.

I just wanted to say here that if Obama got assassinated, and if war were declared on Iran as a result, we could expect to see further false flag attacks on Amerca such as were carried out exactly seven years ago.

As Mark Glenn has argued, the assassination of Obama would not only provide a perfect pretext for attacking Iran, it would also be used as an excuse to crack down on civil liberties.

Adults taking an innocent stroll through the park, for example, if unaccompanied by children, are now to be stopped and interrogated by park wardens as if they were potential pedophiles. (See propagandamatrix).

In the UK, kids are actually being hired to spy on their neighbors and report "suspicious behavior". Drop a chewing gum wrapper on the ground by accident, while attempting to put it in a litter bin, and you can be fined £250 ($500).

9/11 gave our Zionist masters just what they wanted: an excuse to turn this country into a police state.

I've been saying this ever since they [TPTB] announced his candidacy bid. What a perfect way to full-fill the "bible prophecy". Its like all the events occurring the world today are being contrived/staged in order to carefully set the stage for 2012………
Or…… I may be just a another kooky conspiracy nut!!!

America would not go to war over the death of a black man. You also ignore the fact that Iran has less to worry about from Obama, who would more likely move the action toward Pakistan rather than Iran. America has never gone to war over an assassination. Europe might (WWI), but not the USA. The US generally goes to war over sea-disputes, both real and imagined (Gulf of Tonkin). This even includes harbors – such as Charleston Harbor-Fort Sumter, Havana harbor, Pearl harbor, or the New York Port Authority. In the case of the US Mexican war a river stood in for the sea. It also includes delayed responses to sea disputes as in Britain seizing both sailors and ships before the War of 1812, and the sinking of the RMS Lusitania in 1915. Even the actions started in 1775 were connected to incidents around Boston harbor and sea trade.

Gulf War 1 was started over oil.

This is a frightening scenario. Most Americans studied high school physics and still believe the official version of 911. There is too much contradictory evidence available, that Americans should be clamouring for an unbiased investigation of 911; one which satisfies all but the most sceptical doubters. Instead we have complacency and blind obedience to the state.
I am convinced that America will be a pushover for the NWO and the public who is supposed to be educated and open minded will believe any manufactured story that appears on Fox News.

Another website(?) has reported that Barak Obama's father is, by ethnicity, 7/8 Arab and 1/8 African. (In fact, most of the Horn of Africa populations, including neighboring Kenya, are more ethnic Arabic in origin and culture than African.)

Obama is thus the first Arab-American candidate for President. Nor is he an African-American candidate in any sense, since his ancestors were never kidnapped and involuntarily hauled off to a foreign country where they were used and sold as slaves … by our earliest enemy, who remains our main enemy still today.

If we believe our Zionist media, African-American populations have affixed their hopes to Obama's personalismos, which they have been "linked" to his skin color. The emotional explosion from an assassination of a Zionist-made hero-figure like Obama would be heightened if he were to win the "popular" election outright (aided by the unfathomable mysteries of electronic voting machines) all the while being ineligible to run in the first place, according to the Constitution, because of his non-native birth in Kenya. That would give rise to a real "constitutional crisis" for our Constitution, and the Bill of [individual] Rights which go along with it. If our enemy can take our Constitution down, it will take our Bill of Rights with it. The Bill of Rights, standing alone, means nothing. It has been the real assassination target of our enemy, since long ago. (No offense intended.)

Oh, it could be much worse than an Obama assassination. Both Obama AND McCain are scheduled to be at ground zero tomorrow. (9/11 seven years later.) If they were BOTH assassinated, then we would REALLY have a "reason" to go to war AND George Bush would have a reason to declare his martial law and stay in power. The Zionist are not above murdering their own people to complete their agenda. very sickening.

#12 by **lochness** on 09/10/2008 - 1:54 pm

Why only Obama? Maybe they'll wait and assassinate whoever is the next president. After all, Ms. Palin kowtowed to AIPAC and seems to make good puppet material, so her running mate would be a good target for the Mossyheads, not to mention that the violent death of J. McCain may stir up the ire of most Americans more than that of Obama, who after all, isn't even a natural born US citizen. Of course, Mr. Biden is also a Zionist robot, so again, my point, why wouldn't the Israelis take out the president-elect, no matter who he is?

#13 by **Michael K.** on 09/10/2008 - 1:56 pm

I have suspected this plot might find fulfillment since Obama began his campaign. It is a perfect pretext for using the burgeoning police state against "white nationalists." What is a "white nationalist?" That term is used as a label to describe neo-nazis and aryan supremacists. Yet the term on its face describes all traditional American patriots, who are white, in a general way. The negative spin is linked with an internet media blitz of low-minded hate sites which never seem to get shut down by the hackers that have worked over Rense, and my computer several times. The rush to identify all patriots as "lone wolf white supremacist conspiracy whackos," is made more ominous by the implications of an Obama assassination. Frankly, I don't now see a future without desperate warfare right here in the old U.S.A. And all of the 'liberals' in my area are hiding with their heads up their arses, submerged beneath the waves of alcohol and anti-depressants. Sadly, America is like a wooden ship all hollowed out with worms and rot. The whole thing will fall in one hour, and all the rats will be scrambling for anything that floats. I've never seen such a nation of cowards, deceivers, and sociopaths. Enjoy the New Age, faggots.

#14 by **wixif** on 09/10/2008 - 2:18 pm

Interesting article. Another supporting fact: US attorney Eid released the would-be assassins, saying they were "meth heads," unable to carry through with the plot. There were rumors Eid was a Karl Rove appointee. I hope, for the sake of our country (and our sanity, which has been sorely tested this last 7 1/2 years), that this doesn't happen. But I won't be surprised if it does…sad as that sounds. If the neocons bring on yet another war in their final months, we'll know for sure the NWO is winning. But with a free internet, we can still hold our ground.

The Assassination of Obama which could lead to an attack on Iran, would bring about a 3rd World War with Russia, China, Pakistan, and others.
The assassination of Archduke Franz Ferdinand of Austria brought about the first World War, according to history books. The murder of this man was the reason that my father's family came to America. My great grand father worked for Fernnand within his household as a personal servant. My family came to America because Austria wasn't a safe place to live at the time. Assassinations bring up great upheaval, and sometimes rioting. This is what happened when Martin Luther King was assassinated. Detroit was almost burned down.
Mark's example above about President Truman almost being killed by the Mossad, with letter bombs. Margaret admitted that he couldn't have done more for the Jews, and Israel. The problem is they don't judge you by what you did for them, but by what you didn't do for them. There was something that Truman didn't do for them, and this ticked them off to the point, that he had to be killed. Reagan in his autobiography wrote that his biggest regret was that he didn't stand up to Israel. Someone recently wrote that Reagan confronted Israel's Prime Minister Manachem Begen with intelligence, that Israel's Mossad killed the Marines in Beruit. Begin responded by yelling " Damn you, what about the Holocaust? He kept yelling " The Holocaust, the Holocaust, the Holocaust!!!!!!!!!!!!!
And more recently there's the great example of Jimmy Carter. He is outright being labled an Anti-Semite. He was not allowed to speak even at his own party's convention, because they don't want Anti-Semites speaking at their conventions.
If something would happen to Barack Hussein Obama it's not that he isn't doing everything humanly possible, to worship the state of Israel, AIPAC, the Anti Defamation League, and everything Jewish. He has literally sold his soul to these devils. No, it's because they fear that he is a Muslim. And they don't trust a Muslim to do, what they order him to do, on a daily basis.
And now they are more afraid than ever, with his sort of Freudian slip, this past Sunday. ABC News: This Week with George Stephanopoulos — Newsmakers … interviewed Obama, on 09/07/08. Obama said: " John McCain has not talked about my Muslim Faith !" George corrected him and said: " You mean your Christian Faith." The Jewish leaders are shakin in their boots, because Obama has publicly admitted that he is their biggest nightmare, a Muslim!

I was suspecting something for awhile as the Press was putting out stories that Caroline Kennedy, daughter of JFK, was supporting Sen. Obama's candidacy as he offered the nation the same hope that her father did.

With this JFK overlay, I thought an assassination might be in play here to be spun as the Cryptocracy would want to spin it. Black America would erupt in a societal meltdown.

Obama still has to run the program that his handler Zbigniew Brezinski wants to run. But Obama's a cog in the wheel, and another political pawn could take his place (like Gov. Devon Patrick of Massachusetts whose speeches contain phrases that Obama often uses.)

Obama is also an 8th cousin of Dick Cheney, so his genetics are preferable to the criminal Elites, but they would sacrifice their own to further their cause.

Thanks for the great article, Mark.

Welcome to the other side of the mirror! Conjecture is alot of fun, though I find Glenn's more heartbreaking than it is fearmongering, so I'm not sure the dark side would go with it. My favorite theory always included the martyrdom of 43, probably on some lone, expendable warship in the gulf (that ought to boost the price of oil), but that's because I have always thought Darth really really wants to be the first american emperor. (It's not hard to turn the phrase around: absolute corruption seeks absolute control.) Does anyone else feel the GOP's campaign seems a bit half-hearted or even tongue-in-cheek?
As for Mossad's motto, it may as well say "We always lie." Is it even possible for such a group to commit NONcriminal acts?
In my travels on the Net, I have found One Sure Thing: it is so much easier to "catch" the bad guy when he's one of your own; so much easier to "handle" a crisis over which you have had complete control. When chaos is your goal, it's difficult to fail.
Now I have to go and clear the smoke that's coming out of my ears: I think my brain has shorted out.

To really get Americans blood hot to the point of launching another ME war for Israel, the best bet for the criminal elements behind 9/11, the MOSSAD and the CIA, would be to detonate a suitcase nuke in some mid-size American city.

Within hours of that happening, Zionist talking heads on CNN and FOX would start broadcasting that it appears, from radiation readings, that the enriched uranium is from the ME, most likely Iran.

Just like they started broadcasting within hours of the planes slamming into the WTC that Bin Laden was behind this and hey, look!!! We've got mug shots of all 19 hijackers!!!

That would get people screaming to nuke Iran in revenge while back in Tel Aviv, they'll be popping champagne corks and patting one another on the back on how clever they've been to get the Christians and Muslims at each others throats,

When the dust settles, Israel, perched like a buzzard on a tree limb, waiting for the last signs of life to leach out of its intended meal, will swoop in and have a feast.

Simple answer is YES. They needed a Pearl Harbor type event in order to get us into all of the wars that had been planned for us to fight for Israel. Israel orchestrated 9/11 so that the U.S. would fight all of their enemies in the Middle East. The next enemy of Israel for the U.S. to take out is of course Iran. This is the subject of Mark's article above, whereby Obama's assassination will bring this attack about. 9/11 and these wars for Israel were planned many years ago. Some claim 9/11 was being planned as far back as 1979, other's claim 9/11 was planned in 1984. The war's were planned in the 1990's, and put in a report in 2000 by PNAC. Bush and Cheney are nothing more than puppets for Israel, and the B'nai B'rith, the Jewish International Order of Freemasonry. This is the "REAL ILLUMINATI!"

I am very intrigued to see this discussion because I told my wife, last month, that I believe something ("False Flag") like this is very very probable. There is a need to raise awareness of this that we may unite as a country in the face of unprecedented EVIL ie Zionist agenda. Truly it would be wise to raise as much awareness as possible about coming "false flag" attacks within your communities so we are more ready to identify it this time unlike 9/11,which took far to many people far to long to put the pieces together and see that it was an inside job and a Zionist cover-up from some Washington, British and Israeli intel circles to create a war on civilians (because most of these poorer countries don't have real Military to fight back) in Afghanistan, Iraq, Palestine, Lebanon ,Syria ,Pakistan and now as we were reading Iran. Basically the whole of the Arab/Muslim world and don't forget domestic lock down as well. What these bastards will do for three things: Oil, Israeli expansion of borders and genocide of innocent African ,Arabic ,Indonesian,Persian and Asian people the world over for the Zionist "NWO"/ Israeli agenda. For those who dare say "the U.S. wouldn't go to war over the shooting of a black man" where have you been? those madmen in Washington have spent over 3 trillion$ and killed millions of civilians for less of a provocation from any country.

#24 by **Rob** on 09/10/2008 - 5:33 pm

"There is speculation about this."

Is there? Maybe for some, but a lot of us are long since done speculating. The facts, the REAL facts, speak for themselves.

go back to sept 10th, and remember the 2.3 trillion dollars missing from pentagon spending, remember the enron and worldcom fiasco that led right to the doorstep of the whitehouse. Remember PNAC and their pleas for a new pearl harbor like attack. Remember the Iraq and Afghanistan war plans, the ones in response to 9/11, were drawn up and shelved several years before 9/11.

Remember that Bush ignored detailed and substantiated warnings from various intelligence agencies. Remember that bush told the FBI to back of bin laden in the months leading to the attack. Remember that Bin Laden was suffering renal failure and required constant contact with a dialysis machine.

Remember that there is no evidence, and never was, link Osoma with 911, or Iraq for that matter.

Remember that Halliburton, and various other companies with ties to the whitehouse, have profited immensely from 9.11 and the resulting wars

Remember that office fires can not reach the require temperature to melt industrial certified steel. Remember that structural collapse cased by fire, by basic scientific principles, can not be a total symmetrical collapse .

Remember that in the physical world, buildings made of concrete and steel can not fall into their own footprints at free fall speed without the supporting structure being blow to dust before hand.

Remember that on 9/11 there were various drills being run, which apparently caused the delayed (lack of) reaction. Remember that one of these drills included hijacked planes flying into various targets, including the pentagon and WTC AT THE EXACT TIME IT ACTUALLY HAPPENED (same as the london 7/7 attacks).

Remember that up until the days before 9/11 rules were in place and followed strict procedures during a hijacking. In relation to that know and understand it was Dick Cheney that changed those plans (google norman minneta).

Remember the 60 or so Israeli spies rounded up before and shortly after 9.11, some of which were caught with trucks loaded with explosives, and caught filming the attacks. When released (as they ALL were) they returned to Israel, went on TV and explained they were sent there to document the event. Remember they didn't tell ANYONE about this, they merely knew before hand, and recorded it for posterity.

Remember that the US government created and funded Bin Laden's group, and beyond that, remember that a former CIA director has stated on the record there is no Al Queda and never was.

Let us never forget the percieved enemies right now, are the very same ones Israel has been desperate to have their lapdog take care of.

There is no speculation. You can speculate about who actually did it, but regardless of what you believe, it is clear that at worst, the US government did this themselves, at best, they simply let it happen to take advantage of it.

Bush stole both elections, and had the worst ratings up to that point, he was tied with the enron fiasco, and Rummy couldn't account for 2.3 trillion dollars.

They had no enemy to justify the insane defense budgets, and no one wanted a war. Then one sunny morning it all changed.

Their police state laws were passed unquestioned, and several wars were started. The global economy is tanked, and world peace is a distant dream.

But if you look close enough, you'll see, those in charge are cashing in big time, and don't plan to change any of that anytime soon.

Will Obama be killed? I personally don't think it will even get that far, I personally expect Bush or Cheney to get killed, just before the election. Then the super secret continuity of government plan comes into effect, elections and the constitution are suspended, and anyone questioning the official government propaganda will be rounded up and sent to 'Civilian Forced Labor Camps" that were conveniently built by Halliburton.

Obama will never be inaugurated, they need the Iran war started now, before Russia takes anymore steps to help protect it's asset. They want a cold war, and they are working towards it, but Israel demands Iran and Syria be dealt with first, and i think we all know who's demands the government listens to.

Good article, one can only question why it's being blocked by websense on a Canadian government Network.

That was great info you posted. This is what I wrote on one of Mark's postings:

The only comparable thing to the Liberty attack would have to be the Israeli involvement of 9/11. When all of the evidence is layed out, what we see are dual Israeli's everywhere we look being involved. The computer's in the Pentagon had Israeli software. Israeli duel citizens were running the war games on 9/11. The airports had Israeli run security. Dov Zakim, a Rabbii, and comptroller of the Pentagon's funds, at least 2.3 trillion disappeared, according to Rumsfeld. Zakim was also involved with remote controlled planes. Donn De Grand Pre told Alex Jones that the turns, according to experienced Jet Pilots were impossible to make by hand, but could only be done by remote controlled equipment. There were the Eight white vans in New York manned by Israeli Mossad. These vans were loaded with tons of bomb material according to the Brooklyn newspapers. There were the Dancing Israeli's who said on Israeli T.V., that they came to the U.S.A. to Document the Events. There were the Israeli Art students who turned out to be Mossad. There were the moving van companies where Mossad were covertly working. There were the hundreds of Mossad reported by Fox News. There were the ODIGO warnings where only Israeli's were sparred from dying. There's all the connections with Silverstein, Netanyahu, Sharon, etc. There's so much documentation that a court of law would have to convict Israel for these murder's. There's Sen. Robert Graham telling Gwen Iffel that this was a state sponsored attack. She asked which state did it? We can't tell you for up to 30 years. They can't tell us because it's the State of Israhell! And there's people like Chertoff, and Mukasey who sent hundreds of Israeli Spies back to Israel. And lastly, there's Dual citizen Judges like Hellerstein who are in control of the 9/11 cases. Let's be honest. The Muslims did it!!!

Why is it that our country is run by zionists and dual nationals, right up to nuclear weapon security? All levels of all branches have these traitors in place and any new 'candidate' or nomination must be vetted by ziocon groups before even seriously being considered. This goes against common sense, national security, the constitution and numerous laws yet it continues to happen. Further the 'gubmint' has not told the truth about OKC, TWA800, Columbine as well as 9/11. They dictate a story in contravention of the evidence and threaten those who would speak the truth. America is dying unless we take it back. The administration's position of 'don't confuse me with facts I've already made up my mind' is dangerously insane and the exact policy that Bin Laden argued about. And Bush should have to explain the 5 million dollar payment to Bin Laden in May of 2001!!!!!!

To really get Americans blood hot to the point of launching another ME war for Israel, the best bet for the criminal elements behind 9/11, the MOSSAD and the CIA, would be to detonate a suitcase nuke in some mid-size American city.
— Greg Bacon, September 10, 2008 at 4:49 pm

It would of course help if Obama were assassinated first. An Iranian would then picked up with an incriminating note in his pocket, signed by President Ahmadinejad of Iran, urging same Iranian to continue his good work by detonating a suitcase nuke in Miami. The Iranian would of course conveniently die while resisting arrest — tasered into silence!

Within the next few days Miami would be emptied of its population, causing universal panic. A small suitcase nuke would then be detonated in San Francisco. Thousands dead.

As a result of these disasters, Tehran would then be razed to the ground. This is how it would happen in a Tom Clancy novel. All I wish to say is this: don't laugh. I am not being satirical. I am telling you that what was done on September 11, 2001 was something that even Tom Clancy in his wildest dreams could never have imagined.

Seven years ago, to the day, Israel declared war on America. The past repeats itself. Prepare for new attacks on your country by an Enemy that never sleeps.

i fear the jewish zionists will carry the day some how,for a while , and immerse the world in war.
why?
prophet mohammed(pbuh) stated clearly 1429 years ago that the christian nations will stand under 80 banners of 12000 soldiers each and invade muslim lands and break all peace treatys.

so what would cause this to happen?

we see in the west the wily jew hiding behind christian names practicing subterfuge,treason,murder and plotting and planning against all human beings as is his nature. the devilish jew.
to those people reading the blogs here, the devilish jews tentacles have gone far deeper then you can possible
imagine, in our food,drink,medicines,nutrition and human welfare this nefarious creature of evil has poisoned them so that we die slowly being the cattle he claims we are for him!

don,t believe me? ,check all chemicals in medicines,shampoos,conditioners childrens items and see the effect on the human body plus whats sprayed on the food in agriculture. the chemical methylchloroisothialinone in all shampoos, and conditioners plus other bath products is known to destroy to the nervous sytem!! whatever you put on your head is absorbed upto 64% into the brain!!

the jew has reason to fear the muslim and rightly so, because we are his nemesis, the prophet mohammed(pbuh) stated a time will come when trees and stones will cry out saying,oh muslim , servant of Allah, there is a jew hiding behind me come and kill him!

now we know rocks do not talk, it means those people far from gods word and deeds who will recognise the devil in their midst causing all this mayhem and strife in the world and will wish to do away with them namely the satanic jew.

the muslims have plenty to pay back to the jew with interest built over the years, inshallah, as they never forget we muslims do not either,you can win a 100 battles,the muslims need win only one and you will be finished forever!

To even contemplate assassination as a means of discussing political consequences is outrageous. Senator Obama is the choice of the Democratic party as its presidential candidate. It is now up to the people to choose. This is the people's right. It must never be taken away by evil psycopaths, foreign enemies (some posing as friends) or government black ops. The right to choose is sacrosanct and must always remain that way. It is up to the American people to keep it that way.

I was going to leave some bits of 'wisdom' on the matter – but aside from Mark's well thought out and VERY probable article – this was the the most unusually intelligent and coherent collage of intelligent comments I have seen regarding ANY Mid-East matter in a LONG TIME. That is good — it means people are THINKING once again! Too bad it is now WAY TOO LATE.

This isn't rocket science folks. We have and HAVE HAD a mortal enemy for as long as we have began the struggle for independence – according to virtually all of the Founding Fathers. I have had the RARE opportunity of experiencing what REALLY goes on in realtime 'Jewville'.

When I say that the IDF is the world's largest institutionalized terrorist organization – that is NOT intended as an analogy —- IT IS A FACT! We were given a RARE window of opportunity to rid ourselves once and for all from the yoke of these demons and reagain the greatness that we once enjoyed – but we were moral cowards and blew it. That date will eventually be part of the epitaph on our collective national tombstone for all future generations to see – in the trash heap of history.

That date was June 8 1967 – the date that we kissed the asses of the Jews that slaughtered hundreds of our finest sons father and neighbors in cold blood in an act OF WAR against my country. OUR OWN GOVERNMENT PUNISHED the victims – and REWARDED the murdereres with BILLIONS of dollars in 'gifts' – AND the bodies of thousands MORE American dead. It was the UNTIMATE ACT OF TREASON against my country in its ENTIRE HISTORY.

Which ever scenario is committed by the IsraHELLIS – it really won't matter – because we will not defend our own citizens against our MORTAL DOMESTIC ENEMY no matter HOW MANY are murdered. The Jew has proven his uperiority over us TIME AND TIME AGAIN.

When we perish as a nation – it WILL INDEED BE FOR LACK OF KNOWLEDGE. NOT ONE OF THE PRESIDENTIAL HOPEFULS HAS NEVER EVEN EXPERIENCED WHAT KNOWLEDGE I HAVE WITH OUR MOST MORTAL ENEMY ON EARTH!

ONE DAY we will 'pick on' an innocent nation that CAN FIGHT BACK! We are already well on our way to becomming the most hated bully on the block – and DAMN SURE NOT THE COUNTRY I EAGERLY PLACED MYSELF IN HARM'S WAY TO SECURE SAFETY from REAL ENEMIES more than 40 years ago!

If ANY AMERICAN HAS THE GUTS to see what this country will be like for our children and grandchildren under the inevitable 100% JEW influence that ALL of our current leadership has OPENLY PLEDGED TO INSURE! – IF we do not end up in WWIII – look into what the Jew has in store for us in his Godless secular material world. This is just a TASTE of what to expect in our new 'improved more tolerant' Jew lifestyles without the TRUE Christian tradition I was raised with well over half a century ago! TRUE Christianity has essentially been destroyed nationwide.

Want to see what the Jew dominated America of the future will be like for your children – a place where men have become gods and told Christ to 'take a hike'!?.

Another attack of any sort won't have people screaming for war with Iran – it will have open warfare in our very own streets in the form of armed rebellion… we have learned far too much to continue buying into their lies…

If memory serves, an assassination made to look like an accident already happened. It happened between the moment that Hilary suggested a need for her to stay in the primary because of what happened to RFK and just before the moment Obama folded a prayer into a crack of the so called "Wailing Wall".

Soon after Hilary dropped out of the primary, her campaign air transport service, Midwest Airlines, was shoved into service for the rest of the primary.

Midwest airlines had recently acquired the services of an Israeli Maintenance Shop, Empire Aero Center. It's just Hilary and Obama, professing Americanism while using foreign services. Kind of like our Department of Justice and Department of Homeland Security. Where would we be without all these embedded Israeli's in our government and industry?

But it doesn't stop there. Midwest Airline's board of directors reads like a list of white house staffers in Beth Brothel DC.

With Liberty, Lavon, Pollard, Dov Zacheim, etc, etc killing Americans and destroying our young nation with the Talmudic Gypsy agenda of a people without loyalty or nation, you'd think potential Ron Brown designates would do a little research – unless of course – they have a death wish.

The possibility of an assassination and a "wag of the dog" are very probable in the context of crimes this government has committed, especially given Vincent Bugliosi's recent testimony before the COnyer's truth commission regarding the prosecution of George Bush for Murder and the technical advice he offered on how that can happen. We know Georgie would be a song bird in the mold of John "I Flambeau Gook Kiddies" Mc Palin, and the only way, if we rely on Bugliosi's technical assertions, to escape time for crime by the Gestapistas in this government would be the full blown police state resulting from a "protective" false flag attack or assassination.

Cross your fingers – something big is about to happen.

I've read several reponses, here and in other places, which mention zionist factions wanting to turn the US into a fascist police state. Now, the question is why? What would the reason be to make that happen? What is the ultimate goal?

May I suggest the following: There are 6 million or so Jewish citizens in the United States, living here happily so far — and much to the dismay of Israel — not living in Israel. It's the largest number of Jewish people outside of Israel, and if they had a good reason to leave, they might just move to Israel, if things got bad enough in the currently comfy old US of A.

Solution: Turn the USA into a fascist (and eventually an anti-semitic fascist) state and Jews will be heading off to Israel in droves. This solves Israel demographic problem of rising Arab birthrates relative to Jewish birthrates. If this, or some other Anti-arab genocidal solution, doesn't manifest itself soon, Jews will be a minority population in the Jewish State.

Even if Obama is elected, it will be hard enough to get the U.S. "on course" towards any sustainable, peaceful, egalitarian future.

So if the Republicans steal yet another election, or the American working-class has been dumbed-down enough to vote for McCain, or, worst of all, Obama is killed, then America is DEAD. There will be no hope for any sort of positive future (unless you're very wealthy–but what good is money if the world is a nuclear graveyard?).

I would interpret any attempt on Obama's life to be a veiled threat from the neo-cons who engineered 9/11. As if to say, "We know you know we killed him, and WE WANT YOU TO KNOW." It would be a very bad sign, a sign that the neo-cons are even crazier, more ruthless and manipulative than they've already shown themselves to be.

#37 by Donco on 09/11/2008 - 2:21 am

I truly believed that 9/11 was an inside job from the very first day! Bush and his merry band of one worlders had to have a reason to go into the Middle East and invade and overthrow the rebel governments that would not line up to the U.N. Charter as we are being forced to do!
America and it's constitution are being destroyed and being transformed into a multi-cultured one world state under U.N. Charter law!
The U.N. view on Immigration is " It's not Immigration but Migration a movement of people able to cross national borders without restrictions and able to use any and all social services" and what is our government allowing??
Another U.N. Charter article on religion states, " there shall be no dominate religion that influences or dictates government policy" hence the suppressing of the Christian religion which this nation was founded upon!
We are being put under many U.N. Charter articles, including sexual preference laws, redistribution of the worlds wealth, hence the moving of large corporations from America and millions of Americans losing their jobs!
We have a traitorous government thats selling us out!! They have and still are dishonoring every man and woman that has ever fought and gave their lives to protect America and the American way of life!!
I for one will not line up to their new U.N. laws and will not honor or obey laws that they pass for other cultures while suppressing the American culture and robbing my children and grandchildren of their chance of an American way of life!!
We should be made to dig up Benedict Arnold and apologize to him for what we are letting our government get by with!!
This election I will write in a vote for:
Howdy Doody
For President
The Better Choice
And We Approve This Message!!

"They" have proven to be sinister enough so that perhaps this election is a remake of "The Deadly Game" and both of the candidates know that ONE of them may indeed be "The Chosen One"….perhaps based somehow on their ratings in the polls or some other way the elites might enjoy "keeping score".

Here are two great postings that I saw on Alex Jones website. We tend to forget about the false flag terror attacks that were attempted by Mossad, on the Mexican Congress, a month after 9/11.

6 Jennifer Says:

September 10th, 2008 at 9:58 pm
The Israeli agency in charge of WTC security oversaw CDI, A Jewish owned demolitions company, plant explosives in the WTC towers which demolished WTC 1,2 & 7 and murdered thousands of innocent Americans.

The "attacks" more accurately called "demolitions" achieved dozens of goals some of which include the Jewish owner of WTC 1,2 & 7 receiving billions in insurance money, the American invasion of Iraq on behalf of Israel and last but not least a never ending and undefined "war on terror" that could be used against any enemy of Israel and its' Antichrist leader who will soon appear.

Several Israeli Mossad agents were caught on 9/11 filming the destruction of the towers and DANCING WITH JOY while giving each other high fives. They were quietly spirited off to Israel without a trial.

One month after 9/11 – 2 Israeli Mossad agents were caught in Mexico planting bombs in the Mexican congress building to use as a false flag ops to blame on Al Qaeda. They were quietly spirited off to Israel without a trial..

Neocon Jews in our Government orchestrated 9-11 so we would go overseas and kill Muslims on behalf of ISRAEL.

7 Mike Says:

September 10th, 2008 at 10:00 pm
As reported in La Vox De Aztlan, two men posing as press photographers, one of them a former Israeli Colonel and Mossad agent, were arrested INSIDE the Mexican congress on October 10, 2001 (one month after 9-11) armed with 9-mm pistols, nine grenades, explosives, three detonators, and 58 bullets, but were released following intense pressure from the Israeli Embassy.

"We believe that the two Zionist terrorist were going to blow up the Mexican Congress. The second phase was to mobilize both the Mexican and US press to blame Osama bin Laden. Most likely then Mexico would declare war on Afghanistan as well, commit troops and all the oil it could spare to combat Islamic terrorism."

The supreme enemy is invisible, and the Judaics are but his favorite and most effective and faithful instrument in the visible realm. Ironically, the Judaics themselves are the most completely tyrannized by Satan. All men, especially the Judaics, need our prayers. God speed – be good, be safe.

We mustn't forget that the impoverished souls of the Talmudic Inadequates have also been outed in South America.

In August of 2006, Argentinian Interior Security captured an Israeli diplomat with a diplomatic pouch full of explosives. Despite a challenge from Argentina's executive, who is also a parishioner of the state church of Israel, he was arrested anyway.

In Bolivia, the dual Israeli American citizen and US Ambassador to Bolivia,Philip Goldberg, was instructed to pack his bags and leave by Bolivian President Evo Morales on National TV because his "choseness", our Ambassador, has been encouraging treason and class warfare.

Boy it would be nice to be a republic again instead of an annex of the War and Oil Exchanges privateered state juice on Jewish Mysticism. One day – one day soon – when we finally back the Exchange into a corner – who will be the fall guy? Who will the Exchange blame it on to save it's neck? My book is that the first words that come from the Houses of the Unholy when the rats is the ghetto of Neo Conned America start chewing on their childrens' legs is: "The Jew Made Us Do It!"

Is a sure bet they're look for replacement clowns to assure the continued flow of blood soaked shekels into the counting rooms once the world finishes up with a bit of arranged payback to the false weak pretenders claiming to be Jews in America and Israel. And that's the problem – the Talmudic Dandies, all awash in self aggrandizement, are so blinded by the swirling disco lights of Zionism and self honoring vanity, they cannot see the set up for Masada II – the replay – by the Josephus of the War and Oil Exchange.

Freedom is just another word for nothing left to loose.

Two very important, complementary articles that highlight yet again that the best investigative journalism is occurring on this freedom-of-speech-restoring, blessed internet and reinforces how pervasive are the brainwashing and mindless PROPAGANDA techniques we have been subjected to our entire lives by the Zionist media cartel to manipulate public opinion for the unmentionable's self-aggrandizement and increasingly to garner support for another war. This time because they seek to extend their hegemony/boundaries over addditional assets/territory belonging to the Iranians, and use our people as fodder in another senseless, malevolent attack and genocide of Muslims:

" Report: '60 Minutes' Cut Ahmadinejad's Statement, 'Solution Is Democracy' in Israel/Palestine

"The interview that Mike Wallace did of Iranian president Mahmoud Ahmadinejad 2 years ago was aired on C-Span recently, and a diligent blogger has reported on what "60 Minutes" cut out of the interview when it aired. When Wallace confronted Ahmadinejad with the 'wipe Israel off the map' threats,…"

Thank you, Mark, as always, for this edifying, timely and critically significant essay. It may prove you and Dr. Duke both exceedingly precient with keen insights into the always cunning Judaic mentalities. I believe you are dead on the money as to what the Zionists are planning. The hand-picked selection of these two contenders (one of them, McCain, amongst the most reviled Senators in America) for our highest office of treason was indeed no accident. Though the countless Jewish/AIPAC/Israeli-firster lobbyists throw ill-gained, obscene amounts of money at both presidential candidates, Obama makes the Zionists nervous as they fear his being a closeted Muslim, and thus a wild card who may harbor covert sentiments towards their hated neighbors, the Arabs and NOT 100% manipulatable for Zionist/Israeli interests. And what better way to later make it look as though God's Chosen people were wildly behind him and of course, above scrutiny should just such a development as assassination materialize. THE choice of these two "front runners" to emerge on the Republican/Democratic tickets stinks to high heaven (as it does every four years) and only fools could believe these were "the peoples' choices." The Democrat's pick of Obama suggest something sinister is afoot. Yes, they have a much worse fate in mind for him than being a Zionist ass-kissing marionette following their marching orders. I believe Obama is being set-up for murder by the perennial psychotics to trigger catastrophic events, and I agree with poster Michael K that it is likely they will blame it on some white nationalist outfit so that they will finally have the catalyst they need for sealing their absolute power and ensnaring a befuddled, hapless American public into their trap. They will gain the added bonus in the aftermath of such an event of having their favorite laboratory pet projects – the malleable blacks, unleashing their never-spent fury on Whitey who will be the usual undeserved targets of riots and murder. They will finally get their federal hate crimes legislation the usual suspects (two Jew shrews this time) have been pushing that will criminalize the patriotic, freedom-loving bloggers who seek to expose this vast criminal cabal of Marxist Jewry. (See Patrick Grimm's MUST-READ essay and the others on this topic: http://zionistwatch.wordpress.com/2008/05/07/the-jewish-durga-and-the-goyim-kleptocracy/ on this subject AND http://www.realjewnews.com/?p=150)

Recall that the "Senate Bill 1959 to Criminalize Thoughts, Blogs, Books and Free Speech Across America" was stealthily attached to the Defense bill by our Zionist-owned traitors infesting our Congress that by a hair's width and a prayer failed to become the law of our land this year (largely owing to Rev. Ted Pike's heroic efforts to defeat it):

http://www.newstarget.com/022308.html

And let's not forget that it was the Jew publication "The New Yorker" that had the unmitigated gall to run the July 14 cover of Obama and his wife, Michelle, dressed in gun-toting, militaristic garb as Muslims whilst burning an American flag in the fireplace. In fairness, I'm convinced both Barak and Michelle really DO hate America and Whites, but I blame the Jews who foment that hatred relentlessly through their control of the American media and universities/schools. My assessment of that deliberately staged incendiary depiction is they KNEW controversy would ensue following its publication, but the Jews got to exhibit their unabashed hatred for Muslims while simultaneously blaming it on the equally despised American people/Christians. Isn't it wonderful to have a virtual monopoly over information? Moreover, they were able to send a covert message of warning to their fellow tribesmen who traditionally vote overwhelmingly Democratic (80+%) and leaning in Obama's direction AND got to blame Whitey for THE Jew's demeaning portrayal of the Obamas'. (See: Obama Team Decry Satirical Imagehttp://www.amren.com/mtnews/archives/2008/07/obama_team_decr.php)

So talented in psychological warfare and mind control are these Jews…This roving band of gypsies/thieves/mass murderers have so many centuries under their belts of perfecting the fine arts of hatred and tyranny, fleecing the Gentiles through their mastery of usury and using them towards their enrichment and squashing of perceived enemies – all the while using propaganda to hoodwink them into thinking that they are benign entities and ACTUALLY beneficial to our nations.

Wake up, slumbering Americans/Westerners, to this OBVIOUS Menace in your Midst which seeks your destruction!

Note to VOIR DIRE:

Your excellent comment has been noted. Thank you for quoting the concluding statement to my September 10, 10.59 post : "After all, hadn't Ahmadinejad threatened to drive every Jew into the sea and 'wipe Israel off the map'."

I just wanted to make it clear that I was speaking ironically. I did not for a moment mean to suggest that Ahmadinejad had actually SAID any such thing! We all know now that the "wipe Israel off the map" statement was a mischievous mistranslation and a total distortion of what Ahmadinejad had actually said.

Thanks to the Zionist media, however, roughly 95 per cent of the world now believe that the Iranian regime is salivating for the destruction of Israel — and going flat to develop nuclear weapons to achieve that end. It is my own hope that Iran DOES indeed acquire nuclear weapons — the sooner the better! — if only to counter any threats coming from that mad dog of the Middle East, Israel.

I shall take this opportunity to compliment Mark Glenn on his excellent article. The high caliber of the comments that follow his article may be attributed to the sudden arrival on this site of a number of new exceptional posters. May they continue to delight us with their enlightened opinions.

In regard to the ongoing Iranian nuclear program, it would appear that Palin has now agreed with McCain that America must take strong action against an "aggressive" Iranian regime that is "threatening" Israel.

"We are friends with Israel," Palin said recently, "and I don't think we should second-guess the measures that Israel has to take to defend themselves." Iran presented a danger not only to Israel but to "everyone in the world", she said. America had to make sure that weapons of mass destruction were not put into the hands of men like President Mahmoud Ahmadinejad. "Not that he would use them," she added slyly, "but that he would allow TERRORISTS to use them." [My emphasis].

So that's where we stand right now. Iran plans to make nukes and hand them over to Al-Qaeda. Al Qaeda is then going to go berserk and start bombing New York and London. Mushroom clouds are on the way unless…unless…unless what? Unless we nuke Tehran first and wipe it out! And then hand over the Iranian oil fields to our nice little ally Israel as a reward for being so loyal and supportive.

Yes, the Zionist media are at it again. Latest news out from Israel? Here it is, hot from the horse's mouth in ZioNazi Land:

By Con Coughlin and Tim Butcher in Jerusalem
Last Updated: 1:08AM BST 12 Sep 2008

"Fresh evidence has emerged that SUGGESTS Iran has renewed work on developing nuclear weapons… Nuclear experts responsible for monitoring Iran's nuclear programme have discovered that enough enriched uranium, which if processed to weapons grade level could be used TO MAKE UP TO SIX ATOM BOMBS, HAS DISAPPEARED from the main production facility at Isfahan.

American spy satellites have identified a number of suspicious sites, which the Iranians have not declared to nuclear inspectors, that intelligence officials BELIEVE are being used for covert research.

The new discoveries emerged as it was revealed that Israel had asked America for military supplies, including "bunker buster" bombs and re-fuelling planes, suitable for an attack on Iranian nuclear installations. The Israeli paper Haaretz reported yesterday that Israel has also asked for permission to use an air corridor through Iraqi airspace, currently controlled by America, to Iran.

So far the requests have been turned down by Washington, which is currently not as keen as Israel to consider a military strike against Iran.

But concern that Iran has resumed work on BUILDING ATOM BOMBS has deepened following THE REVELATION THAT LARGE QUANTITIES OF URANIUM HAVE GONE MISSING from Iran's conversion facility at Isfahan." [My capitals].

Is there any proof that Iran is bulding atom bombs? Any proof that "large quantities of uranium have gone missing"? NO! No proof is needed! All the Zionist media need to do is invent lies and feed them to a gullible public. WMD in Iraq in 2003…now WMD in Iran in 2008! Nothing changes.

So here we are. Six atom bombs on their way to Al-Qaeda! Six western cities in danger of being wiped out! Quick, let's bomb Tehran…!

Sarah Palin after an Israeli filmcrew met with her for several days, and more recently Joe Lieberman, and AIPAC, have gotten to her – has really come out of the closet for Israel. She is trying to talk as tough as any man, in order to please her Jewish Master's. She gives the impression of standing up to Russia because they as she believes, attacked Georgia. She also is hinting at using Nuclear Weapons, you can't talk much tougher than that. She will back and defend Israel against any, and all bullies. The problem is that the two biggest bullies on the block is Israel and Amerika. Someone needs to walk up to Sarah Palin, and slap her on her Ass, and say " Are you trying to get all of us killed?" In World War Three with Russia, and their allies China, Pakistan, and many other smaller countries, there would eventually be fighting in our Neighborhoods. China alone could anti-up an army of well over two hundred million. They would have an army large enough to kill almost all of us, they'd rape to death our woman (including Sarah Palin and her daughter's) and Amerika would probably be heard of no more throughout History. I'm a Theologian, and in most prophecy Amerika seems to just disappear from History. This is what we get for having fools for our leaders. So Palin just keep it up, and you'll eventually finish us all off.
The last real fighter's were probably the Vietnam Veterans. I'm 60, and Joe is probably a little older. The Jewish Conspiracy of B'nigh B'rith is probably waiting to make their move, when most Vietnam Veterans are not very capable (meaning they are aging). And that time is drawing near for most of us. But even at our prime it would have been virtually impossible to hold off an army of hundreds of millions. This is what happened in Korea. Millions of Chinese were brought against our troops, and Truman threatened to Nukle them.
All I can say is George Bush, Dick Cheney, Sarah Palin, John McCain, Barak Hussein Obama, and Joe Biden – your all literally crazy – for even thinking of using Nuclear Weapons, going to war with Russia and China, and allowing Israel to get us into a war with Iran – (or as Mark writes by using Obama as a sacrifice), or an outfight attack on that nation. You will bring nothing but more Pain, and Suffering for this once great nation, that you all apparently intend to finish it off!!! None of the sissy nations in NATO would even think of fighting on Amerika's side. They all know that this will be total SUICIDE for all of them if we were to enter a Third World War with Russia, China and their allies.
One last thought on Sarah Palin – her son is going to Iraq – anyone who can – keep an eye on where he is stationed compared to the other's who are sent there. Will her son be another Al Gore who had the easiest duty in Vietnam? This was because Gore's father was a Senator!

I must say ,I posted earlier ,but I was just reading over all of these wonderful exchanges and want to say I really love all of your intelligent perspectives.Thanks to Mark and his article I don't feel alone anymore. Thanks and lets hope we all stay active in keeping freedom at any cost. It (freedom) is to important to not fight for. Remember …give me liberty or give me death, it wasn't take my liberty in exchange for security against a zionist's boogyman or give me ….ya know. Any how, may we all have a good go at standing up for reality outside of cyber but in the World we share.

Thanks for your thoughtful response, Researcher LP Pandora. Sorry I didn't realize that you were being facetious. It has been duly noted.

I first came across this incredibly talented writer, Mark Glenn, upon reading his exemplary analysis of New York's now disgraced former governor Elliot Spitzer (see "More To The Rise and Fall of Elliot Spitzer Than Meets the Eye") posted on patriot/writer Curt Maynard's website. I knew when I read it that I had happened upon another intellectual giant savvy to the ways of these timeless troublemakers known as the Jews, and that we were lucky to have him on our side. Please donate to and help support our best writers by buying their eye-opening books SO worthy of much wider audiences or sending contributions to help them maintain their awesome websites/blogs. We don't have the benefit of the Jews financial robber barons fiat money machine like The Federal Reserve and endless brokering of the tax code by our Federal Leviathan for the Zionists' fleecing, a "kosher" hidden tax, and hundreds-of-millions-of-dollars in tax-free foundation monies to bankroll our interests as the nation-wreckers currently enjoy, do we?

Blog on, intelligent posters, who are clearly WIDE AWAKE and FOOLED NO MORE. As Matt Drudge so succinctly put it, with the advent of the alternative media revolution, we are ALL journalists now.

I encourage everyone, in the face of this engineered financial meltdown which has the American sheeple thoroughly spooked for the first time in their complacent existences, to take advantage of this opportunity and spread the word to your family, friends and co-workers about this malignant cancer eating away at the soul and wealth of our nation. I have found Americans more receptive to the truth more than ever before. Everyone senses the disease has metastisized to an inoperable level. They merely need guidance in diagnosing the source of this widespread illness. The Jews can no longer mask their deleterious effects/parasitism on the Western nations. Direct them to Rense.com as the best source for the best financial writing on our fiscal plight and the truth about these Zionist vultures feeding off of the public trough. Those who work within the complex world of modern finance and investment are privy to the machinations of the belly of the banking beast, and thus in a position to see first-hand what is unfurling.
Getting them there is the first objective. They will eventually make the intellectual leap and connect the obvious dots.

To Jeff: Every single day there are literally thousands of people who join our cause after discovering the sickening, horrific truth of what ails the West and the Arab nations. I find it so heartening to know that there are literally tens of thousands of astute individuals/writers/bloggers who have joined the revolution and are shucking the shackles that have for so long enslaved us. The momentum continues to grow by leaps and bounds, and the quest for truth and justice will no longer be stifled by the Jews' former stranglehold over the dissemination of information. That I am a rare female who is determined to spread the word speaks volumes about the success we are having. Do not be discouraged and fear not. There IS no stopping us…!

note from me, MG–as much as I appreciate your complimentary words, the fact is I am a rookie in this business, and there are persons much more gifted than me who deserve the praise.

Nonsense, MG, you are being too modest. You not only have the knowledge, you have the verbal facility and the eloquence to put forward your views in a way that has an emotional impact on your many readers. Above all, you have what the great Roman satirist Juvenal called "saeva indignatio" — savage indignation: that is to say, moral outrage against an Ancient Enemy who toils night and day to defile Christian civilization and destroy its values.

Here's how I see it : jews are so deluded with their belief that they have a higher I.Q. than us, that they thought they could pull off 9/11 no problem… and we would just believe whatever they told us… ~~ … But the fine Police Officers on the streets must've caught most – if not ALL (over 200) of Israel's 'intellectually superior' spies… Some spies ! – Busted by NYPD ! HA ! … These Officers uncovered activities WE were never supposed to know about. In part – thanks to them… many of us are now aware of 'the elephant in the room'. … Presumably, they did not expect the stupid GOY to figure any of this 9/11 business out… Suprise fuckers ! We're smarter than YOU think ! … And YOU are (obviously) NOT as smart as you think !

As for Obama, I agree with all of the indications pointing to him being 'set-up' for an (attempted ?) assassination, but I don't think it's to set up Iran. I think it's to set US up ! … 'Us' – being *Domestic Terrorists* on our nasty free speaking 'hate' sites ! …Look at those patsies that were busted. [and released via Carl Rove] ~~ (Americas Finest again !) – connecting those clowns with Iran would be a stretch… but if they happened to be the 'product' of an extremist website… they would have a good excuse to shut down all this Israel talk, & perhaps start jailing dissidents like US.
